

## Mesa 2

**YOUR OFFICE IN THE FIELD**

Introducing... your new office. In a sleek, ultra-rugged package that can go with you into the harshest environments out there. Use the new Mesa 2 Rugged Tablet to quickly and easily collect field notes and combine harvester observations for your agricultural field research needs. Running Windows® 8.1/10, the Mesa 2 brings powerful functionality to your field data collection, featuring a vast, 7-inch, extra-bright display for easily viewing heat maps or large amounts of data, all-day battery power lasting up to 15 hours, and of course, the unmatched ruggedness for which Juniper Systems is known for. Consider the Mesa 2 your office, in the field.

## MESA 2 RUGGED TABLET

The days of needing multiple devices to collect and analyze data are gone. Running a full Windows OS, you can carry out the entire data collection process from start to finish on your Mesa 2. With a racing-fast processor, extra-long battery life, and unbeatable ruggedness, the Mesa 2 is designed for maximum efficiency in harsh conditions. Ideal for use with HarvestMaster's Mirus data collection software for field note-taking, the Mesa 2 features a larger display than any previous Juniper Systems device, while remaining lightweight and ergonomic for minimal fatigue. With all the functionality of a desktop computer packed into a tough, mobile device, the Mesa 2 will truly become your office, in the field.

### ILLUMIVIEW™ HIGH-VISIBILITY DISPLAY

- Large, 7-inch display for easy viewing
- IllumiView technology provides extraordinary visibility
- Optically-bonded capacitive touch screen for needle-sharp imagery
- Chemically-strengthened Dragontrail™ glass for excellent impact & scratch resistance

### PERFORMANCE

- Powerful Windows 8.1/10 Professional OS for office-to-field use
- Plenty of memory - 4 GB RAM & up to 128 GB flash storage

### EXPANDABLE BATTERY

- All-day battery runs 8–10 hours for minimal downtime
- Optional expansion provides additional 4–5 hours
- Operates in extreme temperatures from -4 F to 122 F (-20 C to 50 C)

### JUNIPER RUGGED™

- Maximum protection for your data
- Dustproof & waterproof (IP68 rating)
- Designed to MIL-STD-810G for ultra-ruggedness
- 2-year warranty

### READY FOR ANYTHING

- Long-range Bluetooth® Smart Ready, Wi-Fi®, 4G LTE, serial & USB connectivity
- High-performance GNSS receiver
- 8 MP rear, 2 MP front camera
- 1D/2D barcode scanner & UHF RFID

## APPLICATIONS

- Seed research
- Crop science
- Plant breeding
- Horticulture
- Soil science
- Field note-taking
- Combine observations
